## DOUBLE TAKE

THE BOSTON NEIGHBORHOOD PROJECT

**THE SCOPE**  
Pick a neighborhood in Boston, and get lost in it. Walk around and explore your surroundings, talk to the locals and listen to their stories, and research the appeal of the neighborhood. Then design an application that is inspired by what you find.

**THE APP**  
Double Take serves as an interactive repository for found art, public art, or anything in between that peaked your interest enough to slow down and give appreciation. Share and discuss unique sites or artifacts with others, and map to other must sees in your area.

**THE INTENTION IS CENTERED AROUND AN APPRECIATION FOR THE "LITTLE THINGS" YOU FIND WHILE HEADING SOMEWHERE ELSE.**
